

AT

Atlanta Public Schools

K-12 · 50,325 students across 86 schools · GA · Federal funding eligible

TL;DR — 30-SECOND SKIM MEDIUM

APS operates 86 schools serving 50,325 students, 100% Title I eligible and 71.3% FRPL, creating hard NDAA compliance exposure: any Hikvision/Dahua hardware on campuses puts federal funding at risk and must be replaced.

Active Senior Security Systems Specialist JD explicitly requires 'server and client upgrades, backups and archival plans and/or SQL database administration for all Life Safety Systems throughout the District', verbatim NVR/on-prem maintenance burden Verkada eliminates; four credible threats post-Apalachee shooting plus a parking-lot shooting at Benjamin E. Mays High School confirm school safety is a board-level urgency.

Zero incumbent vendor names detected across APS's 3-subdomain web footprint; Verkada holds OMNIA contract R250206 (active through March 2028) and HGACBuy SE05-26 via Pavion/APIC at 5% discount, both bypass full RFP for a district whose primary procurement pain is budget constraint and federal compliance.

PROJECTED CHAMPION CANDIDATES (4)

These are projections based on public signals about each candidate. Validate via discovery.

Olufemi Aina — Executive Director of Information Technology

Champion

MEDIUM

55%

● Role ● Recency ● Arc ● Voice ● Topic ● Auth

Aina holds the Executive Director of IT role at APS, which maps directly to the IT_Director persona, the highest-priority champion archetype in the Verkada persona file. His public LinkedIn profile confirms a 'strategic and transformational technology executive' positioning, and his documented AASA article on the 2017 APS phishing incident demonstrates a pattern of public advocacy following infrastructure incidents, exactly the disposition that drives vendor evaluation post-incident. The current APS security incident pattern (Apalachee follow-up threats, Benjamin E. Mays shooting) creates a strong re-evaluation window that Aina, as IT infrastructure owner, would likely be pulled into alongside the Office of Safety & Security.

Validate: *The Senior Security Systems Specialist JD you posted explicitly mentions server upgrades and SQL database administration for Life Safety Systems across the district, is that work currently managed by your IT team, or is it siloed under Facilities/Safety & Security, and who owns the roadmap for modernizing that infrastructure?*

2017-09-29 — Authored AASA article 'Aftermath of a Phishing Attack' documenting APS's 2017 phishing incident and subsequent cybersecurity investment response, demonstrates pattern of public commentary following security incidents and comfort with infrastructure investment narratives.

Cited in PR Newswire release for Atlanta Public Schools selecting Infor ERP, confirms involvement in major enterprise system selection decisions at the district level.

Warm intro: Andy is based in Atlanta with an 'Atlanta DNB' network affiliation, geographic and professional network overlap with APS IT leadership in the Atlanta tech/education community. No direct shared prior employer (Check Point, EY) detected for Aina.

LinkedIn Search

SECONDARY

Dr. Bryan Johnson — Superintendent

Economic Buyer

MEDIUM

42%

● Role ● Recency ● Arc ● Voice ● Topic ● Auth

Dr. Johnson was unanimously approved as APS Superintendent on July 8, 2024, beginning a three-year contract, he is a recent hire (recency score 0.1) who is still in his infrastructure audit window. As Superintendent, he is the board-accountable economic buyer for major security investments; his FOX 5 Atlanta appearance discussing APS community hub conversions confirms public visibility and active engagement with district-wide facilities decisions. His tenure began just two months before the Apalachee shooting in September 2024, meaning the post-Apalachee security response is one of his first major operational tests, a strong motivating context for a platform investment conversation.

Validate: *When you came into the role last July and the Apalachee threats hit in September, what did that response experience reveal about the district's physical security infrastructure gaps, and has that driven a formal security assessment since?*

2024-07-08 — Unanimously approved by Atlanta Board of Education as APS Superintendent on July 8, 2024, beginning a three-year contract.

Appeared on FOX 5 Atlanta discussing APS Forward 2040 community hub conversion plan for 7 closing school buildings, confirms engagement with facilities transformation decisions.

Warm intro: Andy is Atlanta-based with Atlanta DNB network, potential for warm introduction to Dr. Johnson through Atlanta education leadership circles. No shared prior employer detected.

[LinkedIn Search](#)

SECONDARY

Tommy Usher — Deputy Superintendent of Academics

Influencer

MEDIUM

42%

● Role ● Recency ● Arc ● Voice ● Topic ● Auth

Tommy Usher serves as APS Chief of Schools / Deputy Superintendent of Academics and appeared on 11Alive in August 2025 explicitly discussing 'budget gaps, safety mandates, and early literacy plans for 2025-26', his public framing of 'safety mandates' as a budget-year priority is a direct buying signal for physical security investment. His recency score (0.25) is the highest of all candidates, suggesting active public engagement in 2025-26. While his role is academics-focused rather than IT or security, his public position on safety mandates makes him a potential influencer who can validate the school safety urgency with the Superintendent.

Validate: *You mentioned safety mandates alongside budget gaps in your August 2025 interview with 11Alive, are those mandates driving a specific technology procurement this year, or are they primarily staffing requirements like the SRO positions you're currently hiring?*

2025-08-01 — Tommy Usher, APS Chief of Schools, appeared on 11Alive discussing 'budget gaps, safety mandates, and early literacy plans for 2025-26', public acknowledgment of safety mandates as a budget-year priority.

Warm intro: Andy is Atlanta-based with Atlanta DNB network, geographic overlap with APS leadership. No shared prior employer detected.

MEDDIC QUALIFICATION

ELEMENT	ASSESSMENT	DISCOVERY QUESTIONS	CONFIDEN
M Metrics	Consolidate 86 school sites onto one cloud-managed security platform, eliminating per-site NVR maintenance across a district with 50,325 students and 8,963 FTE staff. Protect federal funding eligibility (100% Title I, 71.3% FRPL) by ensuring NDAA-compliant hardware district-wide. NCES CCD: 86 schools, 50,325 students, 3,979 FTE teachers, 8,963 FTE staff (LEAID 1300120, retrieved 2026-05-11) Federal funding profile: 100% Title I eligible (86/86 schools), 71.3% FRPL (35,896/50,325 students) Pain hypothesis: fragmented site-by-site security infrastructure across aging 1960s-era buildings with piecemeal security vestibule additions during individual school renovations	Confirm current number of NVR/DVR units per school and total annual maintenance cost. Quantify IT FTE hours spent on camera infrastructure.	MEDIUM PRIMARY
E Economic Buyer	Dr. Bryan Johnson, Superintendent, unanimously approved July 2024 on a three-year contract. New superintendent typically controls capital budget authority for district-wide infrastructure decisions. Champion signals: Dr. Bryan Johnson, Superintendent, role_classification=Executive, recency_score=0.1, started ~Aug 2024 (11Alive, Who's Who in Black) Persona MEDDIC role mapping: Superintendent_K12 - > economic buyer K-12 entity_type: board approval required for >0K purchases, superintendent is primary recommender	Confirm budget authority, does Johnson delegate security infrastructure to Dr. Kenneth Bradshaw (Deputy Superintendent of Operational Efficiency) or retain direct oversight? Confirm board approval threshold for capital purchases.	MEDIUM SECONDAR

ELEMENT	ASSESSMENT	DISCOVERY QUESTIONS	CONFIDEN
D Decision Criteria	NDAAs compliance (federal funding at risk for 100% Title I district), centralized multi-site management (86 schools), cloud-managed platform (reduce IT burden on 8,963-person staff), campus safety compliance with Georgia state requirements, and cooperative purchasing compatibility. Federal funding profile: 100% Title I, 71.3% FRPL. NDAAs Section 889 compliance required to maintain eligibility NCES: 86 schools across Fulton County, large city locale (code 11), centralized management critical Pain hypothesis: reactive threat response without centralized monitoring, investigated 4 credible threats post-Apalachee shooting depending on on-site presence Tommy Usher (Deputy Superintendent of Academics) publicly discussed "safety mandates" for 2025-26 on 11Alive (Aug 2025)	Confirm whether RFP scoring weights technical capability vs price. Determine if Georgia state safety mandates require specific technology standards.	MEDIUM SECONDARY
D Decision Process	Cooperative purchasing via OMNIA Partners (R250206, active through March 2028+) or HGACBuy (SE05-26, Verkada via Pavion/APIIC at 5% discount) bypasses full RFP. K-12 district board approval likely required for contracts >0K. OMNIA Partners: Verkada contract R250206 "Weapons and Threat Detection Equipment". April 2025 to March 2028 with two 1-year renewals HGACBuy: Verkada manufacturer ID 1177, contract SE05-26, dealers Pavion and APIIC, 5% discount Sourcwell: Verkada contract #041524-VRK active Entity type: k12_district. Georgia public school districts require board approval for significant capital expenditures	Confirm procurement path preference: does APS procurement team favor OMNIA, HGACBuy, or Sourcwell? Confirm board approval threshold dollar amount.	HIGH PRIMARY

ELEMENT	ASSESSMENT	DISCOVERY QUESTIONS	CONFIDEN
I Identify Pain	Fragmented site-by-site security infrastructure across 86 schools, capital renovation program adding security vestibules piecemeal during individual 1960s-era school renovations, creating multi-site sprawl that makes centralized oversight impossible. Compounded by reactive threat response (4 credible threats investigated post-Apalachee without centralized live-view). Pain hypothesis: APS capital renovation program across aging 1960s-era buildings adding security vestibules piecemeal (confidence: medium) Pain hypothesis: Office of Safety & Security and district police investigated 4 credible threats post-Apalachee shooting without centralized live-view or remote camera access (confidence: medium) Pain hypothesis: APS Forward 2040 involves school closures, campus relocations, 7 new community hubs, 14 surplus properties requiring security reprovisioning (confidence: inference)	Confirm whether current camera infrastructure is centrally managed or per-school. Determine if district police have remote footage access today.	MEDIUM SECONDAR
C Champion	Olufemi Aina, Executive Director of Information Technology, highest champion_fit_score (0.55), director+ authority, publicly discussed investing in cybersecurity post-phishing-attack (AASA article), selected Infor ERP (PR Newswire), LinkedIn shows 7,009 followers and "strategic and transformational technology executive" positioning. Champion signals: champion_fit_score=0.55 (highest), role_fit=0.25, public_voice=0.15, authority=0.15 AASA article: "Olufemi Aina, executive director of information technology for Atlanta Public Schools, says the district invested heavily in cyber-security after a phishing attack" (https://www.aasa.org/resources/resource/aftermath-phishing-attack) PR Newswire: APS selected Infor ERP. Aina quoted as decision-maker (https://www.prnewswire.com/news-releases/atlanta-public-schools-selects-infor-301369151.html) Persona MEDDIC role mapping: IT_Director → champion	Confirm Aina is still in role (last public evidence is from earlier sources). Determine if physical security falls under IT or a separate department at APS. Verify Aina has budget influence over physical security, not just cybersecurity.	MEDIUM SECONDAR

ELEMENT	ASSESSMENT	DISCOVERY QUESTIONS	CONFIDEN
C Competition	Zero incumbent vendor names detected across APS OSINT footprint. SSL scan (3 subdomains on atlantapublicschools.com), job postings, news, and Reddit returned no vendor-branded references to Avigilon, Genetec, Milestone, Lenel, Hikvision, Dahua, March Networks, or Brivo. SSL scan: only 3 subdomains found on atlantapublicschools.com (wrong domain, primary is atlantapublicschools.us), zero vendor hits Displacement intel: vendor_hits=[] (empty array) Competitor presence on same procurement vehicles: Genetec (OMNIA R250204), Avigilon/Alta (HGACBuy), Axis, Bosch, Hanwha, Honeywell, Milestone, Motorola Solutions (all HGACBuy SE05-26)	Incumbent vendor identification requires direct discovery. Ask: "Who provides your camera/VMS platform today?" Check if existing cameras are NDAA non-compliant (Hikvision/Dahua), would create urgency for rip-and-replace.	INFERENCE WEAK

Fragmented Systems Across School Sites

MEDIUM

SECONDARY

APS operates a district-wide active capital renovation program across aging school facilities (1960s-era buildings) with security vestibules being added piecemeal during individual school renovations, suggesting physical security infrastructure decisions are being made site-by-site by construction contractors rather than as a unified district-wide platform, creating the classic fragmented multi-site sprawl that makes centralized oversight from the district Office of Safety & Security operationally impossible.

Carroll Daniel Construction case study documents the addition of a 2,100-square-foot security vestibule at Toomer Elementary during its renovation of a 1960s building, security infrastructure is tied to individual construction project timelines, not a district technology refresh cycle (carrolldaniel.com)

APS Capital Improvements page lists active Phase III demolition contracts (\$443,518), construction program status reports for December 2025 and October 2025, and 14 surplus properties being repositioned, large-scale multi-site facilities transformation underway with no mention of unified security platform standardization (atlantapublicschools.us)

[Atlanta Public Schools Projects. Carroll Daniel Construction 2026-05-11](#)

[Capital Improvement. Atlanta Public Schools 2026-05-11](#)

No Centralized Security Operations

MEDIUM

SECONDARY

APS's Office of Safety & Security and district police force are being operationally taxed by reactive threat response, investigating four credible threats in days following the Apalachee High School shooting across multiple campuses, without evidence of centralized live-view or remote camera access capability, meaning the police force depends on on-site presence and external law enforcement coordination rather than real-time remote monitoring.

FOX 5 Atlanta reported APS school police 'investigated four separate threats of violence against its schools in the days after the Apalachee High School shooting' and had to coordinate with Atlanta Police Department and Fulton County Sheriff's Office for in-person heightened security deployment, reactive, presence-dependent response model (fox5atlanta.com)

APS Office of Safety & Security page confirms an in-house police department but describes mission in terms of social-emotional learning and TRIAD model counseling roles, no mention of centralized video monitoring, remote camera access, or unified security operations center capability (atlantapublicschools.us)

COOPERATIVE PURCHASING (4 VEHICLES)

APS has two high-value cooperative purchasing paths to bypass a full RFP: (1) OMNIA Partners R250206. Verkada's 'Weapons and Threat Detection Equipment, Services, and Other Solutions' contract, active through March 2028, directly maps to APS's post-Apalachee school safety investment posture and covers cameras, access control, alarms, and intercoms; (2) HGACBuy SE05-26 via Pavion or APIC at 5% discount, covers Verkada's full Access, Intrusion & Video catalog and is available to Texas and affiliated public agencies including Georgia K-12. Lead with OMNIA R250206 as the primary procurement path given its direct school safety framing. Note competitive exposure on OMNIA: Genetec (R250204), Convergent (R220702), and Flock Safety (R250203) all hold OMNIA contracts. APS could evaluate multiple vendors under the same vehicle. On HGACBuy, competitors include Avigilon/Alta, Axis, Genetec, Milestone, and Motorola, confirming these vendors are actively pursuing the same cooperative-purchasing K-12 market. Sourcwell contract #041524-VRK provides a third path. COSTARS is not applicable to Georgia.

OMNIA Partners

HIGH

Verkada holds OMNIA contract R250206, 'Weapons and Threat Detection Equipment, Services, and Other Solutions' (April 2025 – March 2028, two 1-year renewal options through March 2030).

Weapons and Threat Detection Equipment, Services, and Other Solutions April 2025 – March 2028
(two 1-year renewal options through March 2030)

Verkada's primary cooperative contract for public-sector physical security. APS as a Georgia K-12 district qualifies as a public-sector buyer and can purchase through this vehicle without a full RFP process, directly relevant to school safety cameras, access control, and weapons detection.

[Verkada. OMNIA Partners Public Sector 2026-05-11](#)

HGACBuy

HIGH

Verkada listed as manufacturer (ID 1177) on HGACBuy contract SE05-26 ('Video Surveillance, Access Control and Security Fencing Systems'). Available through Pavion (product ID 44491) and APIC (product ID 44465) at 5% discount.

Video Surveillance, Access Control and Security Fencing Systems February 2026

Verkada is listed as manufacturer ID 1177 on HGACBuy SE05-26, available through dealers Pavion and APIC at 5% discount. Covers Verkada's full Access, Intrusion & Video catalog. APS in Georgia is an eligible HGACBuy purchaser.

[HGACBuy. Video Surveillance, Access Control and Security Fen... 2026-05-11](#)

Sourcwell

MEDIUM

Verkada holds Sourcwell contract #041524-VRK. No Sourcwell-specific security solicitation was found to directly match 'video surveillance' or 'access control' keyword queries in current open solicitations, but Verkada's existing Sourcwell contract provides a cooperative purchasing path for Georgia K-12 buyers.

Law Enforcement Equipment June 16, 2026

Open Sourcwell solicitation in public safety/law enforcement. Verkada cameras, access control, alarms, and intercoms are relevant to this category. APS district police department procurement could flow through this vehicle.

Catalog Solutions for Public Safety and Emergency Management Equipment, Tools, and Supplies
May 12, 2026

Open Sourcwell solicitation for public safety and emergency management, directly aligned with APS's post-Apalachee campus safety investment priorities.

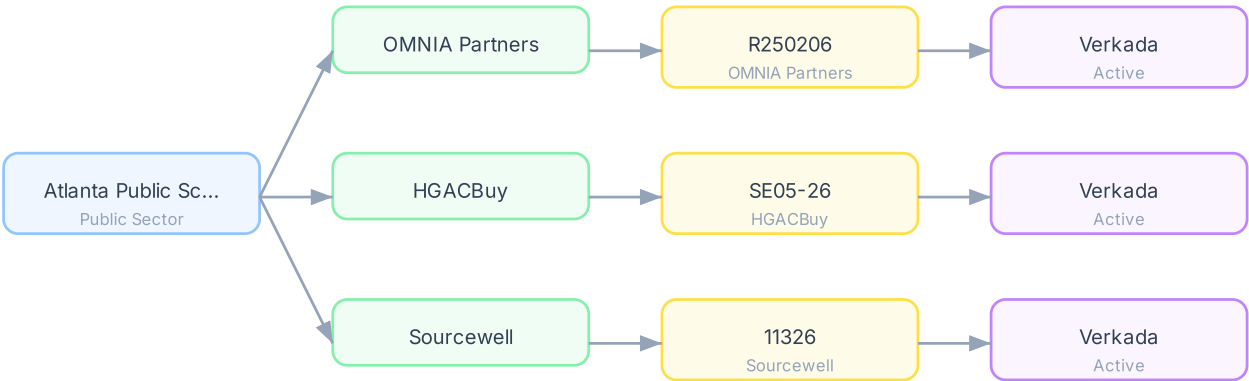

[Sourcwell Solicitations, sourcwell-mn.gov 2026-05-11](#)

COSTARS HIGH

COSTARS is a Pennsylvania-specific cooperative purchasing program. APS is a Georgia district; COSTARS is not a relevant procurement vehicle for Atlanta Public Schools. Data returned a security policy page only, no actionable contract data.

PA COSTARS, costars.state.pa.us 2026-05-11

LAND PLAY

Lead with Cameras at 3-5 highest-need schools, campus_safety_compliance and multi_site_sprawl triggers both fired. APS has 86 schools with fragmented per-site security and investigated 4 credible threats post-Apalachee without centralized live-view. Start with high schools (North Atlanta HS 2,316 students, Maynard Jackson HS 1,474 students, Benjamin E. Mays HS 1,337 students at 100% FRPL).

Target Sites: North Atlanta High School (2,316 students, 4111 Northside Pkwy NW), Maynard Jackson High School (1,474 students, 801 Glenwood Ave SE), Benjamin E. Mays High School (1,337 students, 100% FRPL)

Scope: 86 schools district-wide, start with 3-5 highest-enrollment high schools as POC sites

POC STRATEGY

Pelican case demo at APS district office (130 Trinity Ave SW) + 1 high school, show centralized Command view across 2 sites. Demonstrate remote live-view and forensic search capabilities that address the "reactive threat response without centralized monitoring" pain point. Show 86-site map view in Command to illustrate district-wide potential.

People Analytics Forensic Search

Environmental Sensors (for school safety compliance)

Emergency Notification integration

NDAA compliance documentation

CHANNEL PARTNER

Engage Pavion for K-12 in Georgia, already listed as Verkada dealer on HGACBuy contract SE05-26. Alternatively, APIC is also a Verkada dealer on the same contract. Converjint has OMNIA contract (R220702) for facility technology integration but is a competitor channel.

HGACBuy SE05-26: Verkada available through dealers Pavion (product ID 44491) and APIC (product ID 44465) at 5% discount

OMNIA R250206: Verkada holds direct contract, can go direct or through partner

Converjint holds competing OMNIA contract R220702 for Facility Technology Integration

BUNDLE RECOMMENDATION

Cameras **Access Control** + Alarms

+ Intercoms + Environmental Sensors

+ Guest

K-12 campus safety compliance drives Cameras as primary. APS Forward 2040 school closures/relocations/new community hubs create greenfield Access Control opportunities at 7 new hubs. Intercoms and Alarms support Georgia emergency notification requirements. Environmental Sensors for air quality monitoring in aging 1960s-era buildings. Guest for visitor management across 86 schools.

PROCUREMENT PATH

OMNIA Partners R250206. Verkada contract active April 2025 through March 2028 with two 1-year renewal options.

EXPANSION MOTION

P1 POC at 3-5 high schools (highest enrollment, highest safety need). North Atlanta HS, Maynard Jackson HS, Benjamin E. Mays HS

Pre-negotiated pricing bypasses full RFP for K-12 in Georgia.

Alt: HGACBuy SE05-26. Verkada via Pavion or APIC at 5% discount, covers full Access/Intrusion/Video catalog

Alt: Sourcwell #041524-VRK. Verkada cooperative contract, Georgia districts eligible

P2 After successful POC, propose rollout to remaining high schools and middle schools (12+ sites). Align with APS Forward 2040 timeline, security infrastructure for 7 new community hubs and campus relocations.

P3 District-wide deployment across all 86 schools with full platform (Cameras + Access Control + Alarms + Intercoms + Sensors). Add Guest for visitor management. Target summer refresh cycles for installation.

Expand ratio: 3-5 POC schools → 86 schools = ~17-29x expansion multiplier

COMPETITIVE DISPLACEMENT

Zero incumbent vendor detected in OSINT. If Hikvision or Dahua hardware is discovered during discovery, deploy NDAA rip-and-replace playbook: "Hikvision is on the FCC Covered List. APS receives federal funding through 100% Title I and 71.3% FRPL, existing non-compliant hardware puts that funding at risk. Verkada is NDAA-compliant, manufactured outside China." If Genetec/Avigilon found: "Genetec Federation across 86 school sites requires a server at each site. Verkada Command federates natively, no per-site server."

Fulton County Schools. Georgia K-12 district replaced non-compliant cameras with Verkada to meet federal funding requirements (ref: ndaa_compliance_pressure)

Gwinnett County Public Schools, 140+ school sites managed from single Command dashboard (ref: multi_site_sprawl)

Clayton County Public Schools, high-FRPL district leveraging federal safety grants for Verkada deployment (ref: frpl_federal_funding)

PRIMARY BUNDLE (3)

BR22 Wireless Panic Button

ALARMS BR-Series**BR22 Wireless Panic Button***One-press emergency notification*

- One-press emergency alert
- Wireless, place anywhere
- Integrates with Command alerts
- Triggers video recording and lockdown workflows

WHY THIS PRODUCT

APS operates a district-wide active capital renovation program across aging school facilities (1960s-era buildings) with

Deployment across 50,325 students across 86 schools; 3,979 FTE teachers; 8,963 FTE staff

NDAA[🔗 Datasheet](#)

CB62 Bullet Camera

CAMERAS B-Series**CB62 Bullet Camera***4K bullet for critical perimeter coverage*

- 4K resolution (8MP), 30 fps
- Outdoor rated (IP67)
- Long-range IR up to 80m
- Onboard people/vehicle/license plate detection

WHY THIS PRODUCT

APS's Office of Safety & Security and district police force are being operationally taxed by reactive threat response ,

Deployment across 50,325 students across 86 schools; 3,979 FTE teachers; 8,963 FTE staff

NDAA

FIPS

FedRAMP

K-12 deployments typically include: alarms (BR-Series), cameras (D-Series), environmental sensors (SV-Series), all NDAA-compliant for federal funding protection

DISCOVERY QUESTIONS BY PERSONA (17)

● **It Director** 3 questions

Atlanta Public Schools operates 86 schools. Are those running the same security platform, or did each site choose its own over the years? (ref: Gwinnett County Public Schools, 140+ school sites managed from single Command dashboard)

Multi Site Sprawl

MEDIUM

NCES CCD: 86 schools across Fulton County; pain hypothesis: fragmented site-by-site security infrastructure across aging 1960s-era buildings with piecemeal security vestibule additions

If IT is decommissioning on-prem servers for everything else, how do they feel about maintaining NVR servers just for cameras?

Cloud Transformation Initiative

INFERENCE

Olufemi Aina (Exec Dir of IT) publicly discussed investing in cybersecurity and selected Infor ERP (cloud-based), signals cloud-first IT posture; only 3 subdomains on atlantapublicschools.com suggest minimal self-hosted infrastructure

With 71.3% FRPL and 100% Title I status, Atlanta Public Schools receives significant federal funding. Has procurement reviewed whether existing security hardware meets NDAA requirements? (ref: Fulton County Schools. Georgia district replaced non-compliant cameras with Verkada to meet federal funding requirements)

Ndaa Compliance Pressure

HIGH

Federal funding profile: 100% Title I (86/86 schools), 71.3% FRPL (35,896/50,325 students), has_federal_funding=true (NCES CCD LEAID 1300120)

● Director Of Facilities 3 questions

The APS Forward 2040 program involves school closures, campus relocations, 7 new community hubs, and 14 surplus properties. Are security infrastructure decisions for those sites already locked in, or still in design?

Capital Project Signal

INFERENCE

Pain hypothesis: APS Forward 2040 involves school closures, campus relocations, 7 new community hubs, and 14 surplus properties each requiring security infrastructure decommission/relocation (confidence: inference)

New builds are a clean-sheet opportunity, is the security spec for the 7 new community hubs being written by facilities, IT, or an integrator?

Capital Project Signal

INFERENCE

APS Forward 2040: 7 new community hubs planned as part of district facilities consolidation program

Atlanta Public Schools operates 86 schools. When there's an incident at a remote school, can your security team pull footage without calling someone on-site or VPN-ing into a local NVR? (ref: Gwinnett County Public Schools, 140+ school sites managed from single Command dashboard)

Multi Site Sprawl

MEDIUM

NCES: 86 schools; pain hypothesis: reactive threat response. Office of Safety & Security investigated 4 credible threats post-Apalachee shooting without centralized live-view or remote camera access

● Cso 4 questions

I saw the credible threat investigations post-Apalachee shooting. How has that shifted security investment posture internally?

Incident Recent 12Mo

MEDIUM

Pain hypothesis: Office of Safety & Security and district police investigated 4 credible threats post-Apalachee shooting without centralized live-view, depending on on-site presence rather than real-time remote monitoring (confidence: medium)

What did the post-incident review surface as the primary gap, detection, response time, or footage retrieval?

Incident Recent 12Mo

MEDIUM

Pain hypothesis: reactive threat response without centralized monitoring, investigated 4 credible threats depending on on-site presence

Atlanta Public Schools operates 86 schools. When there's an incident at a remote school, can your security team pull footage without calling someone on-site or VPN-ing into a local NVR?

Multi Site Sprawl

MEDIUM

NCES: 86 schools across Fulton County; Office of Safety & Security investigated threats without centralized camera access

Has your procurement team flagged the FCC Covered List when reviewing physical security vendors? (ref: Fulton County Schools. Georgia district replaced non-compliant cameras with Verkada to meet federal funding requirements)

Ndaa Compliance Pressure

HIGH

Federal funding: 100 % Title I, 71.3% FRPL. NDAA Section 889 compliance required to maintain eligibility

● Vp Of Operations 2 questions

Standardizing 86 schools on one security platform is a big project. What would need to be true for that to land on next year's budget?

Multi Site Sprawl

MEDIUM

NCES: 86 schools, 50,325 students, 8,963 FTE staff across Fulton County; fragmented per-site security infrastructure

The APS Forward 2040 program involves 7 new community hubs, campus relocations, and 14 surplus properties. Are you standardizing the new sites on the same security platform as existing locations, or evaluating fresh?

Capital Project Signal

INFERENCE

APS Forward 2040: school closures, relocations, 7 new community hubs, 14 surplus properties, each a security reprovisioning decision

● Loss Prevention Director 0 questions

No questions — persona not applicable to K-12 vertical

● Superintendent K12 5 questions

Georgia's school safety requirements are expanding. How is Atlanta Public Schools approaching panic button/emergency notification compliance across 86 schools? (ref: Cobb County School District, district-wide security standardization with emergency notification integration)

Campus Safety Compliance

MEDIUM

Tommy Usher (Deputy Superintendent of Academics) publicly discussed "safety mandates" for 2025-26 on 11Alive; NCES: 86 schools, 50,325 students

School safety is a board-level priority for most districts with 50,325 students. What's the current state of Atlanta Public Schools' security infrastructure assessment?

Campus Safety Compliance **MEDIUM**

NCES enrollment: 50,325 students; pain hypothesis: reactive threat response to 4 credible threats post-Apalachee; Tommy Usher discussed safety mandates on 11Alive

Atlanta Public Schools has 71.3% FRPL with all 86 schools qualifying for Title I. Are you leveraging federal safety grants (STOP School Violence, ESSER) for physical security upgrades? (ref: Clayton County Public Schools, high-FRPL district leveraging federal safety grants for Verkada deployment)

Frpl Federal Funding **HIGH**

NCES: 71.3% FRPL (35,896/50,325), 100% Title I (86/86 schools), has_federal_funding=true

With 100% Title I status, Atlanta Public Schools is subject to federal funding compliance including NDAA hardware requirements. Has that been factored into security vendor selection?

Frpl Federal Funding **HIGH**

Federal funding profile: 100% Title I, 71.3% FRPL, NDAA Section 889 compliance required

I saw Dr. Bryan Johnson joined as Superintendent in August 2024. New leaders often audit existing vendor relationships in their first quarter, has that process started for physical security?

Executive Leadership Change **MEDIUM**

Champion signals: Dr. Bryan Johnson unanimously approved July 8, 2024 on three-year contract (11Alive, Who's Who in Black)
